

## Junior Enlisted Suite Floor Plan

***At the Complex, there are eight barracks buildings, all of which are designed in the one-plus-one style, and can house NCO's and Junior Enlisted Soldiers. This means that two Junior Enlisted Soldiers of the same gender each have an identical private 118 sq. ft. bedroom but share a connecting kitchenette and bathroom. All rooms are furnished with a single bed, bedside table, lamp, desk, chair, mounted wall mirror, entertainment center, 10.3 cu. ft. refrigerator and microwave. The rooms are pre-wired for cable and telephone, however, services for each are optional and can be purchased from the local service providers.***
